Learners are advised to go through the material well and come prepared so that there will be fruitful discussions during counselling sessions. Remember that counselling sessions are not teaching sessions and are meant to facilitate you to understand the material properly and to assist you to learn. You will get a chance to interact with other peer learners and the counsellor, so do make it convenient to attend the sessions to help you learn better

### **The practical evaluation shall be done under two components:**

- (i) Guided experiments and
- (ii) Unguided experiments. The guided experiments shall be performed during the counselling sessions under the guidance of the counsellors. The unguided experiment shall be undertaken by the students in the last session. For unguided experiment, student shall not be provided any guidance while performing the experiment(s). Both the components will be evaluated. The weightage of 70% will be assigned to guided experiments and 30% weightage is for unguided experiments. Each experiment performed by the student would be evaluated. The counsellors covering various aspects like manipulative skills, observation, would assess the student performance and their understanding of the basic concepts related to the experiment.
